
What Express Billing Solutions, Inc. can do for you

We are a one stop enterprise that offers billing and collections services. This allows us to work with insurance companies and attorneys.

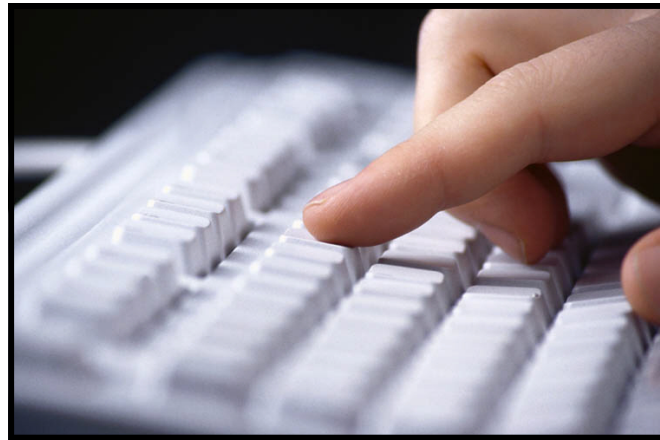

Express Billing believes a doctor should be a doctor. To assist you with that goal our company will properly bill your procedures, follow up on collections, and keep you up to date with weekly or monthly reports.

Allow us to handle your billing and collections so your staff can return to the practice of medicine. We have over 35 years combined experience in billing, a large portion of which has been devoted to PIP.

**Don't have your bill denied
for improper licensing**

Express Billing Solutions, Inc.

Do you and your office staff spend too much time on billing issues?

Our personnel have been devoted to this business for over ten years. We have been recognized by various insurance companies for impeccable documentation, record keeping and professionalism.

When the insurance companies deny or delay your claim for reimbursement that costs you money. You have already spent your money on salaries, postage, and time which at that point has not been replenished.

We can reduce those expenses and get rid of the headaches.

Your money will be in your account and not in the accounts of the insurance companies

It has been estimated that 25% of your practice income is lost to reduced or denied claims. This may be due to improper billing procedures. Allow us the opportunity to decrease that percentage by applying our expertise without adding to your staff.

All payments are made payable to you the doctor, not the billing company. We get paid when you get paid.

You will have the benefit of an experienced staff to collect your money. Our staff is HIPAA compliant and a HIPAA General, LLC certified business associate.

Express Billing Solutions will:

- Keep you apprised of statute and case law changes for collection of PIP monies
- Reply to subpoenas for copies of records
- Maintain and house your files for the billing process
- Save you money on overhead such as staff, health, workers comp and unemployment insurance, postage, benefits, office space etc.
- Track payments and complete the necessary follow up due to reductions or delay
- Follow up on the co-payment and deductible payments which would be due either from the patient or through the tort settlement
